

WEBINAR ON DIGITAL STORYTELLING

The Powtoon webinar on November 17, 2023, successfully introduced participants to digital storytelling using Powtoon. It covered an overview of Powtoon, a walkthrough of the registration process, and a detailed guide to navigating its dashboard. The highlight was a live demonstration of creating a Powtoon video, accompanied by valuable tips for beginners. Attendees left with a deeper understanding of Powtoon and the confidence to create their own digital stories. The event ended with plans for future sessions to further enhance Powtoon skills.

RESULT 3 WHAT IS ALL ABOUT?

The objective of this result is to develop a series of videos and workshops specifically designed to promote cultural diversity, intellectual variability, and developmental differences among students. These resources aim to raise awareness and understanding of these important aspects within educational environments. By showcasing a range of cultural backgrounds, intellectual capacities, and developmental stages, the project seeks to foster an inclusive and supportive learning atmosphere. The videos and workshops will serve as practical tools for educators to address and celebrate diversity in their classrooms, thereby enhancing the educational experience for all students.

RESULT 3 STEP BY STEP

In September 2023, the "We are Colourful" campaign launched a series of promotional activities to highlight cultural and intellectual diversity in education. The campaign began with the release of a promotional video in English on the "We are Colourful" Facebook page, followed by versions in various partner languages across respective social media platforms. This initial phase focused on maximizing online engagement and spreading the campaign's core message.

In December, the "We are Colourful" campaign is focused on finalizing and refining its series of Powtoon videos. These videos, which aim to promote cultural and intellectual diversity in education, will be available in various languages. Once fine-tuned, they are set to be uploaded to the campaign's YouTube channel, significantly broadening the campaign's outreach and impact.

FINAL TPM IN TURIN

The last TPM, hosted by Microkosmos on November 28th and 29th, was a significant event featuring collaborative sessions and strategic discussions. The first day at Microkosmos headquarters focused on progress reviews and future planning, including a Toolkit piloting test and discussions on educational resource improvement. The second day involved a visit to the University of Turin's Department of Primary Education, where the team presented the "We Are Colourful" project, aimed at enhancing primary education. This session sparked positive dialogues on potential educational collaborations, marking a key step in the project's development.
